

## Straw Bale Wall Raising Course

28<sup>th</sup> August – 1<sup>st</sup> September 2017  
Skipsea, East Yorkshire

5-day Straw Bale Wall Raising Course in beautiful Skipsea, East Yorkshire. This course will be to build the straw bale walls, the course will cover practical aspects of strawbale building including how to dress and customise bales, notching, loadbearing and infill techniques, compression of the wall, and much more!. There is free camping available on site and all food will be provided. Camping is basic, there is a compost toilet (called Looease!), no running water or showers, but the sea is close by. Everyone should bring as much water as they can, plus all camping equipment. Camper vans can be accommodated.

It's a lovely site, located the edge of the cliffs in Skipsea, East Yorkshire, we are building 2 houses at the same time, the houses are designed as two semi circles one big and one small. The front South facing elevation has a curved formation joined by 2 right angles to a larger semi-circular layout giving experience of both straight and curved walls. This beautiful plot is on a cliff top 70 metres from the sea!

### Cost

£325 inc. refreshments and vegetarian lunch

### Accommodation

Camp for free or bring your Camper Van!

### Times

We will work from 8:45 – 17:00 each day

### Bookings
